SECURITY COMMITTEE

Monthly Activities Report
June 1978

1. (C) Three DCIDs prepared by the Committee were briefed to and approved by the NFIB at its 6 June 1978 meeting. The directives were:

a. DCID 1/16, providing Community security policy on all foreign intelligence stored or processed in ADP systems.

b. DCID 1/19, establishing for Community use uniform administrative procedures for handling and accounting for compartmented information.

c. DCID 1/20, stating minimum Community security policy on travel and assignment of persons with access to compartmented data.

In connection with the approval of DCID1/16, a memorandum to the Secretary of Defense was prepared for and sent by the DCI to state the Board's concern that personnel security standards for persons accessing ADP systems holding sensitive data be thorough to give reasonable assurance against compromise of data in the system.

2. (S) The Committee staff received and is responding to DCI tasking to:

a. Develop an implementation plan for the accomplishment of the security policy changes for intelligence space matters directed by the President in PD-37.

b. Review intelligence satellite operational compartmentation system in the light of PD-37.

effect on 1 December 1978. The Committee staff provided representation for NSC drafting sessions on the national level implementing directive for the Order. Necessary assistance will be provided to assist the Community in its internal implementation of the new policies and procedures.

5. (FOUO) The Committee continued its review of personnel security investigative and adjudicative standards in order to develop comprehensive models for a sound and mutually supportive Community personnel security program.
